

Magic Touch Projector

Turn any surface into an interactive Touch experience with Magic Touch Projector

Imagine being able to **transform any surface**, such as a school desk or a desk, into a table interactive touch **up to 30 inches**. But it doesn't end there!

Rotate the projector towards a wall and create a **touch projection** screen **up to 90 inches**.

Or use the traditional projection function for a spectacular screen of **up to 150 inches**.

Projection Modes

HORIZONTAL

The innovative **MAGIC TOUCH** projector technology allows you to transform any flat horizontal surface, such as a school desk or a desk, into a **touch screen panel adjustable from 24" to 30"**.

Projection Modes

VERTICAL

By positioning **MAGIC TOUCH PROJECTOR** horizontally, you can project the your content on a screen or **wall of up to 150"**. With the help of **Magic Pen** can **also** perform the **touch function on a wall (max. 90")**.

Videoprojection

MAGIC TOUCH PROJECTOR, equipped with **Ultra-Short Optics** (ratio of 0.29:1 **projection**), integrates **DLP projection technology** with a **brightness of 320Ansi Lumen** and offers **high resolution native FULL HD** projection **1920x1080p** allowing wall projection **up to 150"** diagonal.

Powerful Performance Endless entertainment

The **integrated Android 12** operating system, together with the **Hexa Core microprocessor, RAM** memory of **4GB and 128GB FLASH**, it allows you to run any APP application, be it educational content, a game, interaction or simple visualisation.

Lightweight and portable

Its small dimensions of only **24x 19.5 x 5.6cm** and **weight of 1.4kg** make the projector an **easily transportable** interactive tool without the need calibration and installation.

Multimedia

Powerful integrated **8W speakers** enable the playback of sound, music and multimedia content.

Connectivity

The Android operating system integrated in **MAGIC TOUCH PROJECTOR** connects to the network via **WiFi communication** and the integrated **Ethernet Lan port**. **The two USB ports** allow external peripheral devices such as a mouse, keyboard and USB memory drive to be connected to the projector. The **HDMI port** allows you to connect a PC to the projector and display content directly on the screen (without touch function).

Impeccable control

Remote control

The supplied remote control works in **dual mode: Infrared and Bluetooth**. It allows you to remotely control your device when you don't want to or touch function cannot be used. The **Quick Keys** enable and disable the touch function, adjust focus and volume, select quickly set up functions and move and select contents.

Infrared Pen

With the included infrared pen, you can operate **MAGIC TOUCH PROJECTOR** via **the touch function** even on a **90-inch** screen projected on a wall.

Mirroring

The mirroring function makes it easy to **share content** from your smartphone or tablet **directly to the projector** (without touch function).

Safe and Intuitive Bracket

With the included depth-adjustable bracket, you can easily fix **MAGIC TOUCH PROJECTOR** on any counter or table **ensuring maximum security and stability**. The 3 combinable spacers allow the position of the projector to be adjusted to various needs **from** 5 to 25 cm (5 / 10 / 15 / 20 / 25 cm).

Intuitive HomePage

The access screen (Home Page) of **MAGIC TOUCH PROJECTOR** is simple, clear and intuitive. You can access all the main functions of the device at the **touch of** a finger:

- Your installed APPs
- The Video Channel
- The store where new APPs can be downloaded
- Atlantis' recommended APPs
- The mirroring function
- Main settings and more
